

MY PRIME MINISTER (Educational version)

I see you always standing in a group
...always see you at the center.
Maybe you should start yourself a coup
Take over from the governmenters.

You could start a political party.
They'd have a convention so they could make you leader.
Canada'd have an election.
Your party'd win, You'd be the Prime Minister

You would be Prime Minister
And you would choose Cabinet.
Sometimes you might pick a new Senator,
Decide where the money got spent.

And I would be so honoured
to be a member of Parliament
if you were Prime Minister-
My Prime Minister.

I take federal offense
when anyone says a word against you.
I tend to get all present tense
'cause nobody knows your worth like I do

You should be Prime Minister

You should choose cabinet
We should pay your taxes
You'd make sure the money got spent

If you were Prime Minister
My Prime Minister
Some say it sounds sinister
I think it's the House of Commons-sense.

And I would expose my hypocrisy
that lies beneath my false democracy.
I think that those who'd oppose your win
Should get life inside the sin bin

You should be Prime Minister
